ARIJEET DAS

SOFTWARE ENGINEER | MOBILE APP DEVELOPER

CSE Undergraduate • Cross-Platform App Developer • Creator of DropNet

Passionate Computer Science undergraduate with strong problem-solving skills and a keen interest in building efficient, user-focused applications. Experienced in cross-platform mobile development and exploring full-stack technologies to create real-world impactful solutions.

Kolkata, West Bengal

SKILLS

- **Programming Languages**
  C • Java • Python • Dart • Kotlin
- **Frameworks & Technologies**
  Flutter • Android SDK • Firebase
- **Tools & Platforms**
  Git • GitHub • VS Code
- **Core Computer Science**
  Data Structures & Algorithms • Object-Oriented Programming • DBMS • Operating Systems
- **Developer Productivity & AI Tools**
  GitHub Copilot • Codex • Claude • Blackbox AI

HIGHLIGHTS

- Cross-platform app developer building impactful solutions.
- Focused on clean UI/UX, performance and security.
- Strong believer in continuous learning and feedback-driven improvement.
- Passionate about using technology to solve real-world problems.

LANGUAGES

- **English** – Professional Proficiency
- **Hindi** – Native Proficiency
- **Bengali** – Native Proficiency

EDUCATION

B.Tech in Computer Science & Engineering — 2023 – 2027
Dr. Sudhir Chandra Sur Institute Of Technology And Sports Complex, Kolkata
CGPA: 7.95 (up to 5th Semester)

Senior Secondary (Class XII – CBSE) — 2023
Khalsa Model Senior Secondary School
Percentage: 77%

Secondary (Class X – CBSE) — 2021
Khalsa Model Senior Secondary School
Percentage: 92.6%

INTERNSHIP

Android Developer Intern — 3 Months
EduSkills Foundation (Google Android Developer Program)

- Developed foundational understanding of Kotlin programming and Android app architecture.
- Built basic Android applications using Android SDK and UI components.
- Gained hands-on experience with activity lifecycle, layouts, and app deployment fundamentals.
- Strengthened problem-solving skills through practical mobile development tasks.

PROJECTS

- **DropNet — Cross-Platform File Transfer System** — github.com/arijeetdas/dropnet

Flutter | Dart | Local Network | HTTP Server

DropNet

- Developed a cross-platform file transfer system using Flutter (Dart) for seamless data exchange over a shared local network.
- Engineered a temporary local server architecture enabling secure, direct app-to-app file transfers.
- Built a web-based transfer interface, allowing file sharing between mobile applications and browser clients over the same network.
- Designed user-focused features such as pair-only secure transfer mode, favorite device saving, quick receive, and transfer history tracking.
- Crafted a clean Material UI with smooth animations, enhancing usability and overall user experience.
- Iteratively improved the application based on peer feedback and real-world testing scenarios.

ACHIEVEMENTS & ACTIVITIES

- Actively participate in coding challenges and problem-solving platforms.
- Continuously exploring new technologies and frameworks to enhance development skills.
- Collaborate with peers and contribute to real-world project ideas and improvements.
